Abstract:

Physical Review Letters is the most cited journal in physics. This talk will present information about the journal, both past and present, with a focus on demystifying the editorial process to answer the question: What happens to my paper after it is submitted?

Bio:

Sonja received her Ph.D. in physics at the University of New Mexico in 2003. Her research was in the area of quantum optics and quantum information theory. Following that, she was an NSF postdoctoral fellow at Imperial College London in England. Sonja joined PRL in 2006.
